A little more information about the chess sets...

Each of the sets include 32 pieces, with the exception of the Tournament Range, which comes with an extra queen in each colour. All sets are supplied in card boxes. The white pieces are made of boxwood unless otherwise stated. As natural materials vary in shade and grain, the set you receive may differ slightly in appearance. Ebony is a mature, robust wood which is black in colour. Striped Ebony has flecks of rich brown graining showing through the Ebony black. Rosewood is a reddish brown wood, with a pronounced grain. Sheesham is a very natural coloured wood, medium brown with some graining, although not as pronounced as Rosewood. Antiqued Brown or Black indicates that the pieces are made of boxwood, with the black chessmen being stained to achieve the desired effect.

LONDON CHESS CENTRE CHAMPIONSHIP STAUNTON * £500

Limited Edition

Designed by the London Chess Centre, in cooperation with some of the finest craftsmen, to commemorate the World Chess Championships in London 2000.

Beautifully hand carved from top quality Ebony and Boxwood. We believe it to be the highest quality Staunton pattern set. The pieces are triple weighted. The king measures 4 inches (115mm) with a base diameter of 1.75 inches (45mm). Each set requires over 100 hours of expert craftsmanship, and there is an attention to detail which is unrivalled. For example: the teeth on the knight are carved out, the queen's crown is exquisitely carved producing an angular effect, and the bishop's mitre is deeply cut into the piece.

The Treasure Chest box (r.r.p. £49.99) is made of solid Sheesham brown wood, with brass hinges and embellishments and **comes free with the set.**

This set will become a collector's item to be treasured for years to come.

* Does not include board. For our board selection, please see page 4. Pictured on Luxury 1 Board, 55mm (rrp £249.95) Buy the Luxury 1 Board with the Championship Staunton set for £699.95 (save £50)

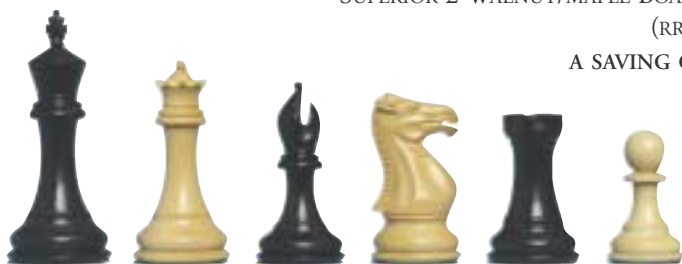

LONDON CHESS CENTRE EBONY TOWER SET £275

The pieces are triple weighted with felted bases, the king height being 4 inches with the other pieces to scale. The design is based on that developed by the English world champion Howard Staunton over 150 years ago. The black pieces are made from the highest quality ebony, while the white pieces are in boxwood. The pieces have broad, bevelled bases. **The box** is our very own London Chess Centre branded leather box, with a green felt lining, and **comes free with this set** (r.r.p. of the box £49.99)

New Chess Sets for 2006

King Richard Brass Chess Set £199.95

Finding a satisfactory metal chess set is always a challenge, and with this and the Boethia sets shown on page 11, we are now spoilt for choice. This super-heavy-weight brass chess set is as impressive as they come. The king is 4" high, with the levels of craftsmanship on the set being as good as many of our high range wooden sets. The colours are easy to distinguish from each other, and over years the brass will take on a new appearance simply through its exposure to natural conditions. Sure to make a fantastic show piece or simply an amazing set to play with.

Arabian Chess Set £99.95

A set with a difference. One of the most unusual materials to be used in chess sets, camelbone provides a unique chess set every time. The level of workmanship is apparent on every piece; from the delicate details on the knights to the flowery embellishments on each and every piece. Despite its dainty appearance, the camelbone material is in fact very durable, meaning this is a set to both treasure and use! The king stands 3.75" tall, and weighs a mere 38 grams. Craftmanship at its finest.

The London Chess Centre Recommends...

Both of these sets would look fantastic on our Teak and Maple Superior 5 Board. The King Richard set should sit on a 55mm square, which is available in this board for £49.95. The Arabian Set, being a more slender set, would be ideally complimented by the 50mm square Teak and Maple board, which retails at £44.95. Details on all of our boards can be found on page 4.

All of our chess sets, books, software and more can be found online at www.chess.co.uk

Boethia Chess Sets

Corinthian Chess Set

The Corinthian Order of architecture first came to prominence circa 400 BC and became prevalent thereafter throughout the Grecian and then Roman world. The style has lent itself to creating an aesthetically beautiful set, whilst maintaining the practical definition of each piece, characterised by its strong linear features and angular segmentation.

Made from either solid sterling silver or solid antimony pewter, the set is made of 34 individually hand cast chessmen, with each piece hand etched & worked to further enhance the detailing. The king stands at 2 ½ inches. Recommended board: 35mm squares - see below.

Pewter Corinthian Chess Set £699 - includes box

Silver Corinthian Chess Set £3500 - includes box

Glen Mor Chess Set

Nestled within the Grampian Mountain range in Scotland, Glen Mor remains a place of hidden and unspoilt beauty. With its lush valleys and loch it is a place that captures an atmosphere that is undeniably Celtic. It is this Celtic nature that is very much the inspiration for the Glen Mor pieces.

It is this diversity that Boethia have sought to capture in the set under the unifying Celtic banner; each piece carries a subtly different style, such as the runic symbolism on the Bishop, the angular architecture of the King, and the organic leafing on the pawn. The king stands at 3 ½ inches. Recommended board: 40mm squares - see below.

Pewter Glen Mor Chess Set £999 - includes box

Silver Glen Mor Chess Set £6500 - includes box

Tudor Chess Set

The Tudor period in England brought about an unusual evolution of design that so often fused very robust forms with intricate elements to create something distinctive and iconic. Our Tudor chessmen have been inspired by the style of the period, from its architecture to its jewellery. The pieces maintain a simplicity in their form and are each adorned with roses, symbolic of the era.

Each set, made from either solid sterling silver or solid antimony pewter, has 34 individually hand cast chessmen, with each piece hand etched & worked to further enhance the detailing. The king stands at 3 inches. Recommended board: 40mm squares - see below.

Pewter Tudor Chess Set £999 - includes box

Silver Tudor Chess Set £6500 - includes box

Safari Chess Set

This Safari set is inspired by African wildlife, with the Lion, Lioness, Leopard, Rhino, Elephant & Monkey. Around the base of each piece, different jungle and savannah detail has been carved in. The piece type has also been etched on, to allow for the recognition of each piece. The king stands at 2 ½ inches. Recommended board: 35mm squares.

Pewter Safari Chess Set £749 - includes box

Silver Safari Chess Set £6000 - includes box

Please allow 3 weeks for delivery of all silver sets.

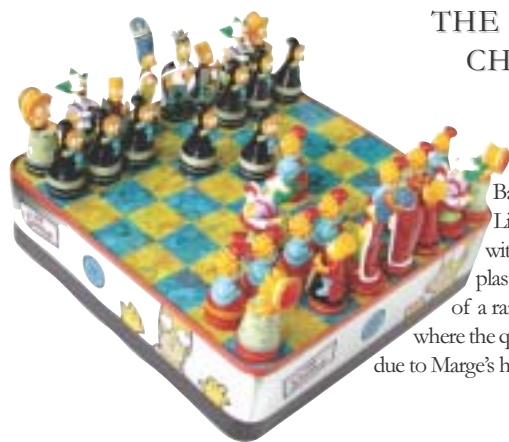

Boethia Chess Boards

35mm Squares £225 40mm Squares £249

The boards (sold separately) are exclusive to the Boethia Collection, and are beautifully made from Emboya and Maple, with a fully leathered base. The 35mm square board stands 40mm high, whilst the 40mm square board stands 50mm high. Again it bears the pewter Boethia Knight insignia. See Boethia chess set descriptions for required board size.

Boethia Chess Box

All of the sets are presented in a solid Emboya wood box made specifically for the set. The interior is fully leathered with a cushioned lid, with the pieces themselves resting on shelves made to size. The box itself bears the pewter Boethia Knight clasp.

THE SIMPSONS CHESS SET

£29.95

All of Springfield's most loved characters are here. Bart, Homer, Marge, Maggie, Lisa and Krusty are all featured, with the set made from durable plastic. WINNING CHESS THE EASY WAY with GM SUSAN POLGAR

A six volume DVD set presented by four-time Women's World Champion and Grandmaster Susan Polgar. Designed for novice and intermediate players, all aspects of the game are split into 40 lessons. Susan has also brought out a new DVD for absolute beginners, **Chess for Absolute Beginners** at £24.95. More details can be found on page 32.

Volume 1 - The Basic Principles of Chess £24.95

Susan takes you through eight easy to follow highly instructive games covering the basic principles of chess. This will help your understanding of chess and is guaranteed to improve your chess game.

Volume 2 - Learn How to Create Plans £24.95

Learn the general ideas and concepts for short and long term planning in the opening, middlegame and endgame.

Volume 3 - Essential Chess Tactics and Combinations £24.95

As the saying goes 'Chess is 99% tactics'. What are chess tactics? Tactics are manoeuvres that take advantage of short-term opportunities, often involving combinations or sacrifices. Common tactical elements are presented here.

Volume 4 - Learn How to Avoid Opening Traps and Pitfalls £24.95

It is always nice to win a game quickly, but some opening traps are based only on the hope that the opponent will make a serious mistake. By knowing what to do and what to avoid you can turn the tables on your opponent.

Volume 5 - Fischer's Most Brilliant Games and Combinations £24.95

Ten of Fischer's finest games, as well as speculation on what would have happened if Fischer and Karpov had faced off in 1975, how he would compare to today's best make this captivating viewing.

Volume 6 - In Las Vegas: Special Edition - 2 DVDs! £24.95

Examine how a Grandmaster thinks on the first DVD, whilst the second covers the Polgar sisters recent Triplex Simul.

GAME OVER £19.99

'How do you make a computer blink?' In May 1997 Garry Kasparov, widely regarded as the greatest chess player the world has ever seen, played Deep Blue in a chess match and 'scientific experiment'. International interest in the match had exploded. The epic battle of Man vs Machine had captured people's imaginations. And the outcome was stunning. To win the match the computer did what many thought impossible at the time, it appeared to think like a human. Directed by multi-award winning filmmaker Vikram Jayanti.

CHESS with FINEGOLD Volume 1 £19.95

America's most recent GM Ben Finegold is a personable, experienced chess teacher who takes a challenging subject and makes it fun and easy to understand. Learn insider tactics, such as forks, pins, batteries and more to consistently beat your opponents. Learn from the greats of chess history such as Paul Morphy. Includes menus and chapters for easy access. Ideal for parents, teachers and kids.

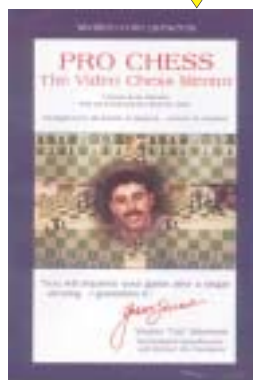

SPEED CHESS £24.95

Four of the hottest players in the United States battle for supremacy in a fast paced and exciting competition. Legendary attacking player Larry Christiansen, strategic genius Joel Benjamin, daring tactician Alexander Shabalov, and the young phenomenon Hikaru Nakamura test their will, speed and determination in a deadly race against the clock. With dynamic and instructive commentary by world class chess announcer Maurice Ashley, get inside the minds of the GM's as games full of drama and tension unfold before your eyes.

PRO CHESS £29.95

The amiable Grandmaster Yasser Seirawan introduces a staggering 3 hrs & 46mins of footage covering all elements of the 'Royal Game'. Split into four study segments, and containing 44 scene links, the DVD covers everything from how to set the men up to discussions of Space, Force and Time in chess. The Pro Chess DVD is the ideal way to reinforce and improve your chess knowledge.

Tackle the latest theory with Foxy Openings. Now you can invite a top player into your living room and prepare to play one of his favourite openings. If you want to get consistently good positions in the opening without having to memorise mountains of theory (as even grandmasters do!) then Foxy Openings is definitely the series for you.

In these videos experts reveal their own analysis and suggest new ideas for you to exploit. Not only do they assess existing theory and latest developments, but they also recommend and explain their favourite plans. State-of-the art graphics illustrate the variations.

CHESSBASE 9 THE ULTIMATE TOOL FOR YOUR CHESS

ChessBase 9.0 is a stand-alone chess database that has become the standard throughout the world. Everyone uses ChessBase, from the World Champion to the amateur next door. It is the program of choice for anyone who loves the game and wants to know more about it. What can you do with ChessBase? Enter, annotate and save games, including variations, text commentary, spoken comments, embedded pictures, soundtracks and even video sequences; analyse positions with GM-strength modules Fritz and Crafty (both included); retrieve games according to openings, players and tournaments; generate tournament cross-tables and statistics of players or openings; merge games into an opening tree; generate a player's dossier containing all available information from the database; find the new move in a game with one mouse click; generate a comprehensive openings report with main and critical lines, plans and most important games; search for material distribution, positions and manoeuvres, search for mates and stalemates; classify games according to self-defined middle and endgame criteria; print games in superb DTP quality with diagrams and multiple columns; easy and direct access to the comprehensive ChessBase online database; freely configurable board and list windows, automatic email transmission of positions, games or databases; management of team championships; intelligent search for tactical themes.

New in ChessBase 9.0:

New Database Browser, Tree control: Integrated Player, Tournament, Source, Annotator and Team Index, New opening key layout, Automatic Opening Reference, New HEUMAS (Heuristic Move Assistant), HTML Support in database text, Game History, Fast Real 3D Board supported, Threat Animation, Improved Search facilities, Chess Media System, (allowing video tutorial with synchronized chess boards) improved correspondence chess features and much more...

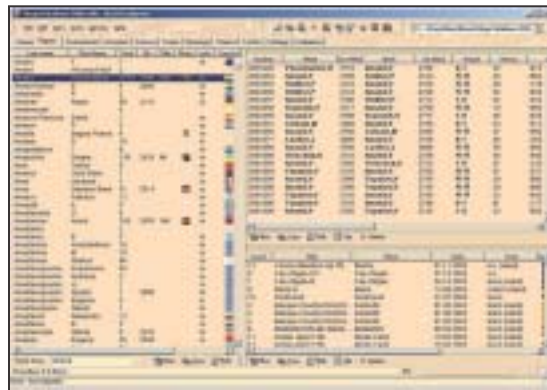

(System Recommendations: Windows XP or better, DVD drive, 256 MB RAM, 1 GHz processor or better. Windows Media Player 9.0 needed for Chess Media System (NB - This is a free download) Required: Windows 98, 64 MB RAM, 300 MHz.)

NB - ChessBase 9 will NOT work unless your computer has a DVD drive. Please make sure before ordering.

ChessBase 9.0 now allows you to have multiple windows open on one screen, allowing you to search the games of an opening's leading exponents without having to go from one part of the program to another.

The 2006 Databases contain 3 million+ games, searchable by virtually any criteria. The Mega Database 2006 even has 60,000 annotated mainly by strong IMs and GMs.

Experience the fascination of the chess duel 'Man vs. Machine' in a unique combination from both past and present: the Turk & Fritz9. Napoleon Bonaparte, Edgar Allan Poe and Benjamin Franklin all succumbed. Can you do better? Of course, there is more to the new Fritz 9 than cosmetic changes. The functions and playing strength have improved as well!

- Take advice from the new 'positional explainer', which makes positional comments about the current position.
- Hone your training in specified areas such as attack, check and defence, with your performance being given a high-score rating.
- Need to practice your ability to utilise positional advantages? Use the new handicap system to see if you can capitalise on your small edges.
- Show your friends and family your games: scoresheet print outs and automatic game playback means its easier to relive your moments of glory!
- Evaluation profile with depth of calculation.
- Alternative forms of chess are catered for too. Load the special engines for Giveaway Chess and Fischerrandom.
- 1 million games database, including games from 1625 to 2005.
- 1 hour beginners course with the Chess Media System by Andrew Martin.
- Chess course for advanced players (3hrs 22mins. of video).

Over THREE HOURS of Chess Video content for intermediate players:

- Garry Kasparov on the Queen's Gambit and the Sicilian Najdorf
- GM Viktor Korchnoi analyses two games from his career
- IM Andrew Martin discusses the Semi-open games, the ABCs of the Kings Indian and Ruy Lopez, and how to manage your clock..
- Danish IM Jacob Aagaard on the Nimzo Indian Defence, examines basic positional ideas and how to attack in chess successfully.
- GM Peter Wells on Strategy and Tactics

Turbocharge Your Playing Program! - Turbo Fritz £99.95

Buy any playing program on this page along with Powerbooks 2006 & Endgame Turbo 2 for an extra £60 (save £19.90)

Fritz Powerbooks 2006 (DVD) £39.95 - due Jan 2006

Fritz Powerbooks can be used by all the programs on this page. Contains 7.6 million opening positions, derived from over one million high-class games. The repertoires have been put together by a team of GMs. The source games are also on the CD so you can see how the players continued from any position within the massive openings tree. At any point you can see all the moves that were played, the ratings of the players and their results. Powerbooks 2006 represents the state of the art of current opening theory. It can be used to discover exciting new lines (e.g. never before played transpositions) and practice them against Fritz or any ChessBase playing program.

Endgame Turbo 2 (DVD) £39.95

Consists of 5 DVDs with endgame databases (Nalimov Tablebases). With the help of the Endgame Turbo, all five and some six-piece endgames are played with absolute perfection. The computer will automatically tell you the best move, the best result and if you're losing, the move which puts up the best resistance.

Likewise, Fritz handles endgames with more than six pieces much better since the program can already access the endgame knowledge during the analysis. Definitely a must-have for correspondence players, endgame theoreticians and friends of engine matches.

Programs designed for multi-processor computers

NEW Deep Shredder 9 £74.95

Deep Shredder 9 is the latest 'Deep' Engine in the Fritz interface, packed with training and entertainment features for beginners and experts alike. Many of the Shredder program's strengths are carried across, with an enhanced and extensive openings book, plus an endgame database which allows Deep Shredder to play all three and four piece endgames to perfection. The program also comes with a 500,000 game database, allowing you to study the classics with arguably the strongest piece of software commercially available.

Deep Fritz 8 £74.95

Deep Fritz 8 is the multi-processor version of Fritz 8. The strongest program produced by ChessBase tied its much publicised match with Vladimir Kramnik in Bahrain 2002. Deep Fritz will run on computers with between one and eight processors. The "Deep" version has been improved and enhanced, it has more positional understanding and additional endgame knowledge. Deep Fritz 8 comes with the full Fritz 8 interface and gives you full access to the ChessBase chess server.

Deep Junior 9 £74.95

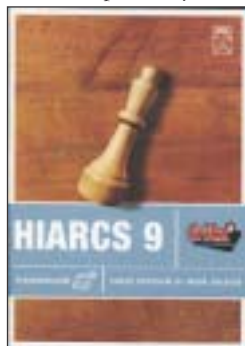

For years Deep Junior has been highly regarded for its aggressive and inventive style, as demonstrated in the 3-3 tie with Kasparov. With this version of Deep Junior, you get two engines - the one which played in the Kasparov match, and a more recent version which was developed further still, as well as the latest openings book as written by Kasparov's former second, GM Boris Alterman, and a 500,000 game database.

'Deep' Engines take advantage of your computers parallel processing to produce a higher level of analysis

Meet the family...

With so many different programs out on the market, it is sometimes a little confusing choosing which is right for you. The way we like to think of it at Chess & Bridge is that they are members of the same family. The functions and design of the programs are virtually identical, but what does differ is their 'chess personality'. Below is a summary of each of the program's 'character traits', which should allow you to choose the program you feel suits you best.

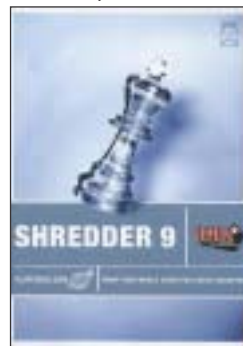

HiarcS 9 (CD) £39.95

Scoring a solid 2:2 draw against super-GM Evgeny Bareev, HiarcS has definitely re-established itself as one of the world's best chess programs. In the years of developing HiarcS its author, Mark Uniacke, has successfully focussed on the implementation of a maximum of chess knowledge and positional considerations, setting its style of calculation apart from its counterparts.

Junior 9 (CD) £39.95

The special strength of Junior is its understanding of compensation. This makes the program an extraordinarily effective tool for analysing sharp and dynamic positions, especially those involving the sacrifice of material. It is the program that is most likely to correctly understand the compensation involved, both in the execution of a sacrifice and the defence against it.

Shredder 9 (CD) £39.95

For computer chess experts Shredder is the number one choice. Winner of the World Computer Championships seven times, Shredder is one of the strongest commercial programs available. In comparison to other programs, Shredder is positionally very sophisticated, spotting some 'quiet moves' which other programs may take longer to consider.

Tiger 15 (CD) £39.95

Tiger by name, ferocious by nature. Chess Tiger 15 is one of the most aggressive programs on the market, favouring tactical combinations to quieter waters. In 2001 Chess Tiger demolished the "Republica Argentina" grandmaster tournament in Buenos Aires, ahead of a number of top GMs, with an incredible 2788 rating performance. Fireworks guaranteed!

FRITZ SENSORY BOARD £349.95

The DGT Fritz sensory board gives you the opportunity to play the friendliest program, in the friendliest way, with a real chess board and pieces. Enjoy your games by making moves on the board and letting Fritz call out its replies. You don't even have to look at the computer screen. Also ideal for analysis and for inputting games. A truly unique playing experience!

FEATURES:

- + Beautifully-inlaid wood board with official FIDE tournament-size squares (5.5 x 5.5 cm).

Pocket Fritz 2 - for pocket PCs £39.95

Pocket Fritz 2 is a chess partner with mobility built in. Take it with you wherever you go and leave boredom behind. Pocket Fritz 2 is much stronger than its predecessor and has an estimated blitz performance rating of 2450 Elo. The younger brother of the world's strongest chess program has made great strides in the area of design, functionality and user friendliness. New pieces and board colours, formatted, colour-coded notation, all contribute to optimum clarity, even in deeply annotated games. The moves of the computer as well as hints and threats are displayed with coloured arrows.

Pocket Fritz 2 has many diverse playing levels that make it an entertaining opponent, while the database functions and new commentary options fulfil the needs of even strong professional players. The program gives you mobile access to the ChessBase Online database with well over two million games. Other new functions: extended user-friendly move entry and annotation; automatic game replay with adjustable speeds; special energy-saving mode for longer battery life. Have fun, play chess, anywhere and everywhere with Pocket Fritz!

SYSTEM REQUIREMENTS: Pocket Fritz 2 runs on Pocket PCs (not included) with Windows CE 3.0 or Pocket PC 2002 or better. Installation of the program requires a PC with CD-ROM drive (desktop computer).

(Please note that a Pocket PC is required and does not come with the software)

FRITZ MEDIA SYSTEMS

VIDEO LESSONS TO IMPROVE YOUR GAME

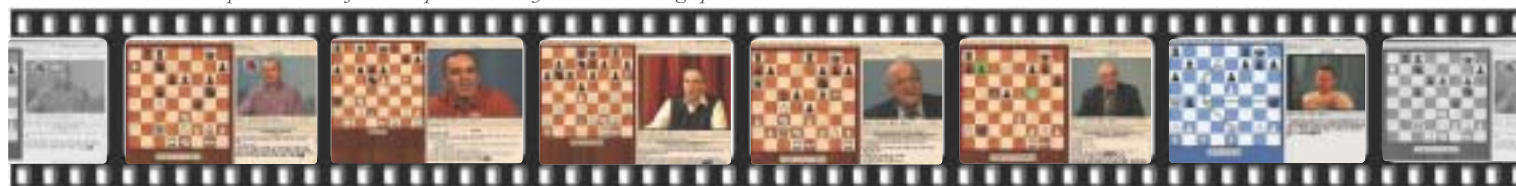

All lectures are presented with full video pictures and synchronised chess graphics.

With the new 'Fritz Media System' chess training has never been so accessible. Sit back and watch a Grandmaster talk you through his thought processes as the pieces move on the board. Much more interactive than any book as you can pause the lecture, fast forward or rewind, you can even stop the video and try out the position against Fritz. Each CD splits the material into bite size chapters for easy digestion. Average running time per DVD: 3 hours.

The battle for the World Chess Championship has witnessed numerous titanic struggles which have engaged the interest not only of chess enthusiasts but also of the public at large. The chessboard is the ultimate mental battleground and the world champions themselves are supreme intellectual gladiators. These magnificent compilations of play from the early days of chess form the basis of the first first parts of Garry Kasparov's definitive history of the World Chess Championship.

Part One features the play of champions Wilhelm Steinitz, Emanuel Lasker, Jose Capablanca and Alexander Alekhine.

Part Two features the play of champions Max Euwe, Mikhail Botvinnik, Vasily Smyslov and Mikhail Tal.

Part Three looks at the reigns of Tigran Petrosian and Boris Spassky, as well as examining their chief rivals.

Part Four is possibly the most anticipated chess book of all time: Garry Kasparov on Bobby Fischer.

Part Five catalogues the "post-Fischer" period in the 1970's and early 1980's. This period was dominated by Anatoly Karpov (world champion from 1975-1985) and his three-time challenger, Viktor Korchnoi.

In this book, a must for all serious chessplayers, Kasparov analyses deeply Karpov's greatest games and assesses the legacy of this great Russian genius. Also under the microscope are the games of Viktor Korchnoi, who was at his peak during this period.

Kasparov's biographies place them in a fascinating historical and political context. Kasparov explains how each champion brought his own distinctive style to the chessboard and enriched the theory of the game with new ideas.

The Best of 2005

2005 was another busy year for chess publishing. Here we showcase some of the best books to come out in the previous year, as well as give you a glimpse of the titles we are looking forward to in 2006.

**My Great Predecessors
Part 4 - Kasparov £25**

This book brings together the two greatest names in the history of chess. The author, Garry Kasparov, is the world number one and, by common consent, the greatest player ever. The subject of the book, Bobby Fischer, is the only American to have become world champion and is probably the greatest natural talent the world has ever seen.

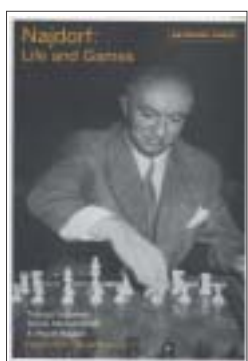

**Curacao 1962 - Timman
£17.99**

In Curaçao 1962 Jan Timman returns to the 1962 Candidates Tournament featuring Fischer, Petrosian, Tal, Kortchnoi and many other giants who battled it out to earn the right to challenge world champion Botvinnik. Timman takes a fresh look at the games, annotates the most important ones (including 16 of Fischer's!) and describes the course of the tournament.

**Play the Sicilian Dragon
Dearing £17.99**

The Dragon is one of the key battlegrounds of modern chess, and a favourite of ambitious chess-players of all standards. In the Dragon, many Sicilian themes are seen in their clearest form, with the ...Rxc3 exchange sacrifice particularly important. In this in-depth work from the young IM Edward Dearing, the multitude of possibilities are examined with verve and vigour.

**Najdorf: Life and Games
Lissowski, Mikhailchishin
and Najdorf £14.99**

Miguel Najdorf has been described as a flamboyant poet of the chessboard whose career spanned six decades. He won many International tournaments although never played for the World Championship. This is an informed biography complemented by one hundred selected games that demonstrate his originality and brilliance.

**Breaking Through
Polgar £20**

Susan Polgar provides a candid inside view of the lives of the Polgar sisters, each with their own goals and aspirations. She takes readers through the incredible development of the three sisters as they pursued their dreams: becoming chess prodigies, growing into contenders, winning World titles and Olympiad gold medals.

**Chess for Tigers
Webb £15.99**

Do you want to win more games? Chess for Tigers tells you how to make the most of your playing strength, how to play upon your opponents weaknesses, how to steer the game into a position which suits you and not your opponent, how to get results against strong opposition and how to avoid silly mistakes. Full of common-sense advice, this book is an acknowledged chess classic.

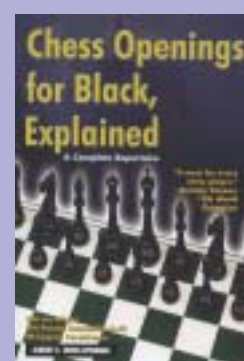

**Experts vs. The Sicilian.
ed. by Aagaard & Shaw
£15.99**

In this book a multinational line-up of leading experts give recommendations against their own pet lines. The line-up of writers is impressive: Peter Heine-Nielsen, Peter Wells, Thomas Luther and Jacob Aagaard are amongst a team of writers who write both intelligently and thoroughly on an otherwise intimidating subject.

**Opening for White according
to Anand Vol. 4 £15.99**

This eagerly awaited 4th volume covers Khalifman's recommendations against the Pirc and Modern Defences, as well as the slightly more offbeat Czech system. The repertoire is based around the critical Austrian Attack with 4.f4, where precise knowledge of variations is essential. This is the main reason why the book runs into an incredible 400 pages!

**Chess Openings for Black,
Explained - Alburtt £19.99**

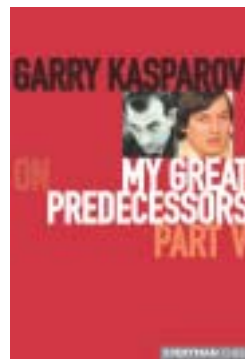

A complete repertoire of opening play as well as a review of all openings and an explanation of the principles of playing this crucial stage of the game. While the books concentrate on the first 20 moves or so of a game, they never leave you hanging without a plan. Fully illustrated with two-colour chess diagrams throughout. **Chess Openings for White, Explained** due early 06, £19.99. **Buy both for £37.50**

The Tips for 2006

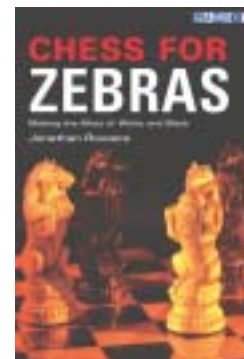

Fritz 9 (CD ROM) £36.99

The best just got better. For the last decade Fritz has been the leading chess software package, with over 100,000 copies being sold worldwide. The new edition incorporates sleek graphics, increased playing strength, a larger database...in fact, it became stronger in all fields. More details can be found on page 26, but suffice to say, everyone at the London Chess Centre is delighted with it!

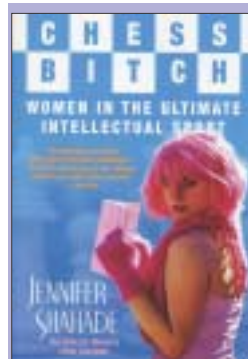

**My Great Predecessors
Part 5 - Kasparov £25**

In this book, a must for all serious chess players Kasparov analyzes deeply his great adversary Anatoly Karpov's greatest games and assesses the legacy of this great Russian genius. Also under the microscope are the games of Viktor Korchnoi who was at his peak during this period and twice challenged Karpov for his world title.

**Chess for Zebras
Rowson £17.99**

In a strikingly original work, Rowson makes use of his academic background in philosophy and psychology in an entertaining and instructive way. This book assists all players in their efforts to improve, and provides fresh insights into the opening and early middlegame. Rowson presents many new ideas on how Black should best combat White's early initiative, and make use of the information that he gains as a result of moving second.

**Chess Bitch - Shahade
£19.99**

Written by the 2004 U.S. Women's champion, Chess Bitch is an eye opening account of how today's young female chessplayers are successfully knocking down the doors to a traditionally male dominated game. Through interviews and observations, Shahade paints a colourful world that most chess fans didn't know existed.

**The Day Kasparov Quit
ten Geuzendam £TBA**

March 11th, 2005. The world's number 1 rated player retired from international chess, leaving a void at the top which many are now fighting to fill. What caused Garry to walk away from chess?

This collection of interviews written by the *New in Chess* editor are sure to be captivating in both their content and insight into one of chess' most significant retirements.
